AT&T MOBILITY'S CERTIFICATION REGARDING ITS ABILITY TO FUNCTION IN EMERGENCY SITUATIONS

Section 54.313(a)(6) of the Commission's Rules requires an ETC to certify an ability to function in emergency situations as set forth in section 54.202(a)(2) of the Commission's Rules. The standards set forth in section 54.202(a)(2) include a reasonable amount of back-up power to ensure functionality without an external power source, an ability to reroute traffic around damaged facilities and a capability to manage traffic spikes resulting from emergency situations. AT&T Mobility has in place emergency operation procedures so that it can function in an emergency. Backup power is provided at switch locations and cell sites through a combination of batteries, portable and permanent generators. AT&T Mobility also has mobile switches and portable COWs (Cells on Wheels) that it can deploy in the event of an emergency. Based on the foregoing, AT&T Mobility certifies it is able to function in emergency situations as set forth in section 54.202(a)(2).

EXHIBIT 389015ND920

Tribal Government Engagement Obligation

Section 54.313(a)(9) of the Commission's rules requires an ETC that receives high-cost support to serve Tribal lands to engage in certain discussions with Tribal governments that includes:

- (i) A needs assessment and deployment planning with a focus on Tribal community anchor institutions;
- (ii) Feasibility and sustainability planning;
- (iii) Marketing services in a culturally sensitive manner;
- (iv) Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes; and
- (v) Compliance with Tribal business and licensing requirements.

This rule became effective August 5, 2013, leaving high-cost recipients little time to engage in meaningful discussions with Tribal governments prior to the October 15, 2013 due date of FCC Form 481. See 78 Fed. Reg. 47211 (Aug. 5, 2013). Attached please find a copy of correspondence to the relevant Tribal government sent after the effective date of this rule. AT&T personnel followed up with at least one phone call to the relevant Tribal government contact.

Beyond the customary and frequent business as usual contacts that AT&T Mobility has with consumer and business customers residing on and governmental authorities of Tribal lands, AT&T Mobility follows additional processes with respect to facilities on Tribal lands. These processes include voluntarily submitting notifications via the FCC's on-line Tower Construction Notification System (TCNS) system to notify federally recognized Native American Tribes and Alaska Native Villages, and State Historic Preservation Officers (SHPOs) of proposed communications tower constructions. The TCNS also provides a means for Tribal governments and SHPOs to respond directly to AT&T Mobility as to whether they have questions regarding the proposed tower construction.

The elements included in the TCNS report include but are not limited to:

- IDENTIFICATION OF INDIAN TRIBES OR NHOS
- INITIAL CONTACT WITH INDIAN TRIBES AND NHOS
- FOLLOW-UP LETTERS WITH INDIAN TRIBES AND NHOS
- NOTIFICATION OF FINAL CONTACTS
- STATE HISTORIC PRESERVATION OFFICER RESPONSE LETTER

For both its owned sites and for sites where its equipment is co-located, AT&T Mobility also performs the required reviews and filings pursuant to the National Historic Preservation Act, P.L. 102-575, Section 101(d)(2) and Section 106 to the appropriate State and/or Tribal Historic Preservation Officers (SHPO or THPO), as applicable.

In addition, site construction complies with all applicable zoning and permitting laws including but not limited to Rights of Way, Land Use Permits, Facility Siting Rules, Environmental, Cultural Preservation, and Tribal Business and Licensing Requirements.

Three Affiliated Tribes of Fort Berthold (MHA Nation)
404 Frontage Road
New Town, ND 58763
Attention-Tex "Red Tipped Arrow" Hall (Chairman)

Dear Tex "Red Tipped Arrow" Hall:

AT&T Mobility LLC or one of its affiliates ("AT&T Mobility") has been designated as an eligible telecommunications carrier ("ETC") for the purpose of receiving federal high cost universal service support (USF) in certain geographic locations in North Dakota, including all or part of the lands of the Three Affiliated Tribes of Fort Berthold (MHA Nation).

As an ETC, AT&T Mobility is subject to the rules and requirements of the Federal Communications Commission (FCC), including 47 C.F.R. § 54.313(a)(9), which requires high-cost USF recipients that serve Tribal lands to have discussions with Tribal governments.¹ Although the Commission adopted this rule in November 2011, it did not become effective until August 5, 2013.²

You are receiving this letter because in 2012 AT&T Mobility received federal high-cost support in North Dakota. Although AT&T Mobility did not use federal high-cost support funds on capital improvements in areas governed by your Tribal government in 2012, AT&T is available for discussions with you and your colleagues about AT&T's wireless service and the topics set forth in 47 C.F.R. § 54.313(a)(9), such as planning, sustainability, and land use issues.³

I am available to talk with you at your earliest convenience about these and other issues.

Sincerely,

Dan Youmans
Regional Vice President
